

Construction Noise Permit Application Consultancy Services for Alexandra House

CLIENT : ISG ASIA HONG KONG LIMITED

LOCATION : HONG KONG

DATE: MAY 2018 – JULY 2018

TAGS: CONSTRUCTION NOISE PERMIT (CNP), ALEXANDRA HOUSE, COMMERCIAL BUILDING, POWERED MECHANICAL EQUIPMENT (PME), PRESCRIBED CONSTRUCTION WORKS (PCWS), NOISE CONTROL ORDINANCE (NCO),

Background

In order to expand the office area in Alexandra House, the demolition of the existing genset and construction of new office spaces will be carried out on the top floor of the commercial building. Due to traffic constraint and safety concern, the construction work is required to be carried out during restricted hours, including all days during the evening (1900 to 2300 hours), general holidays (including Sundays) during the day-time and evening (0700 to 2399 hours), and all days during the night-time (2300 to 0700 hours). The application of a Construction Noise Permit (CNP) for operation of Powered Mechanical Equipment (PME) and Prescribed Construction Works (PCWs) during restricted hours is required according to the Noise Control Ordinance (NCO).

Our Roles

ANewR has been appointed by the Contractor, ISG, to prepare a full set of CNP Application Package. We provide the CNP application consultancy service for the construction works at Alexandra House, including identification of Noise Sensitive Receivers (NSRs), conducting a construction noise assessment and recommendation on noise mitigation measures.

Key Values to Client

Thoroughly familiar with the CNP application process, ANewR helps the Client liaise with Environmental Protection Department to facilitate the CNP application. With our professional services, we help the Client obtain the CNP smoothly and efficiently before the commencement of the construction work. The progress of the work can therefore be maintained.
