### **Who are we?**

**ANewR Consulting Limited** has been venturing into environmental areas since 2008. Instituted by a team of seasoned environmental experts, acoustical specialists, and electronic engineers, we are proficient in rendering one-stop environmental and digital services to public and private sectors across Asia and Europe. Headquartered in Hong Kong, ANewr has experience in serving multi-national corporations and governments, by providing clients with our unique smart solutions.

for environmental assurance and rewarded with a Certificate of Merit in the Best Green ICT Award under the annual Hong Kong ICT Awards scheme in 2012. With a strong belief in digital

communication technology, we adapt our solutions in transportation, power, education, and government sectors to empower our clients to achieve relevant eco goals more cost-effectively.

# ANewR

**Embracing  
digital into  
environment**

### **What are we?**

Under the leadership of Mr. James Choi, ANewR capitalises on the unique digital environmental solutions for over the 10-year practice. Our expertise has grown into the context of air and water qualities, noise, green building, waste management, and remediation. With the extensive know-how in environmental planning and assessment, feasibility study and policy review, ecological design, monitoring, and audit (EM&A), ANewR has matured to be a leading management consultancy.
